STATE FINANCING

The CDBG Economic Development Program provides gap funding for communities to assist businesses in the creation/retention of quality jobs, primarily for low- and moderate-income persons. The maximum award amount per job created/retained with Economic Development Program funds is \$20,000 except if the business is in a Pine Tree Development Zone and has been certified as a Pine Tree Zone business, in which case the maximum award amount per job created/retained is \$30,000. Program activity groups include:

Business Assistance (BA) Grant

- **Non-Municipal Owned:** 1) up to \$400,000 for the rehabilitation of commercial or industrial buildings, structures, capital equipment and real property improvements; 2) up to \$200,000 for noncapital equipment and operating capital or technical assistance provided regionally to businesses facing closure/bankruptcy needing advice to retain jobs or to expand operations for the purpose of new job creation.
- **Municipal owned:** 1) up to \$400,000 for acquisition, relocation, demolition, clearance, etc., associated with public infrastructure projects such as water and sewer facilities, drainage improvements, parking, etc., which are necessary to create or retain jobs in the

(Continued)

nonretail private sector for low- and moderate-income persons; 2) up to \$50,000, with a required local match necessary to secure new funds to the state for eligible economic development planning activities.

Development Fund (DF) Loan

Up to \$250,000 for the acquisition or installation of commercial or industrial buildings and site improvements. DF program funds cannot be used to refinance existing debt.

The Market and Production Development Division of the **Department of Agriculture** provides assistance in the expansion of existing agriculture-based businesses and the development of new business.

Contact: Maine Department of Agriculture
207-287-3491
www.maine.gov/agriculture

- **Agricultural Marketing Loan Fund** provides low-cost financing to help eligible businesses employ new and innovative technologies and processes in order to improve,

(Continued)

expand and enhance the manufacturing, marketability and production of Maine-made products. Funds may be used for the design, construction or improvement of facilities such as commodity storage buildings and packing and marketing facilities. Funds may also be used to purchase or retrofit machinery and equipment.

- **Agricultural Development Grant Fund** is a matching competitive grant program that encourages efforts by farmers, aquaculturists and food processors to expand their markets, promote their products and test new technological processes.

Maine Technology Institute (MTI) supports Maine companies' early-stage research and development efforts leading to commercialization of new products and services. MTI makes investments up to \$500,000 that are awarded on a competitive basis several times a year. All MTI awards require a minimum one-to-one cash match by the recipient. All awards are based on scientific or technical merit, commercial feasibility and positive economic impact on the state.

Regional Economic Development

Revolving Loan Program is designed to make loans through Regional Economic Development agencies for the purpose of creating or retaining jobs. FAME makes disbursements to Regional Economic Development agencies, and they make loans to eligible borrowers. Also, the Regional Economic Development Revolving Loan Program for Day Care Program provides quality child care projects with loans for physical site improvements.

Small Corporate Offering Registration

(SCOR) is a unique means by which a company needing capital may make a public offering of securities, without the often costly and time-consuming process of a U.S. Securities and Exchange Commission registration. The program enables corporations and limited liability companies to raise up to \$1,000,000 in any 12-month period through the sale of securities to the public. The program's primary focus is reducing the cost of capital to small businesses.

LOCAL FINANCING

Tax Increment Financing (TIF) provides municipalities with a local tool to finance the cost of private development. A municipality may use all or a portion of the new property taxes that result from an investment project within a designated district to assist in that project's financing. The municipality has the option of issuing bonds (which are retired using the tax increment) or disbursing the tax increment directly to the investing business to cover project costs. TIF districts may be designated for a period of up to 30 years. The terms of financing are established by the municipality. A public hearing and the majority vote of the municipal legislative body are required, with final approval provided by DECD.

TAX REIMBURSEMENT, CREDITS & EXEMPTIONS

Business Equipment Tax Reimbursement (BETR) Program provides an annual reimbursement of 90 percent of all local taxes paid on qualified business personal property for up to 12 years.

Contact: Maine Revenue Services

207-626-8475

www.maine.gov/revenue

High-Technology Investment Tax Credit

provides credit based on the adjusted basis of eligible equipment. The credit is limited to high-tech equipment purchased (or leased) by businesses engaged primarily in high-tech activities. The credit cannot reduce tax to an amount below the previous year's tax after credits. The credit cannot be carried back but can be carried forward for up to five years.

Contact: Maine Revenue Services

207-626-8475

www.maine.gov/revenue

TAX REIMBURSEMENT, CREDITS & EXEMPTIONS

Continued

Jobs and Investment Tax Credit allows any business, other than a public utility, that invests at least \$5 million in a taxable year in qualifying types of personal property and creates 100 new jobs in Maine within the ensuing two-year period a tax credit equal to 10 percent of the qualified investment and is limited, in any one year, to the lesser of \$500,000 or to the tax otherwise due. Any unused credit amount may be carried forward up to seven years.

Contact: Maine Revenue Services

207-626-8475

www.maine.gov/revenue

Maine Seed Capital Tax Credit Program is designed to encourage equity investment in young business ventures, directly and through private venture capital funds. FAME may authorize state income tax credits to investors for up to 60 percent of the cash equity they provide to eligible Maine businesses.

Investments may be used for fixed assets, research or working capital.

Pine Tree Development Zone (PTDZ) Program

provides qualified businesses that meet PTDZ requirements with tax incentives, such as:

- an Employment Tax Increment Financing (ETIF), which returns 80 percent of state income taxes from five or more qualified new employees for up to 10 years;
- a 100 percent refund of corporate income tax and insurance premium tax for years one through five and 50 percent for the remaining five years;
- a local option Tax Increment Financing (TIF), which does not count against a municipality's existing TIF area and value caps;
- a 100 percent sales and use tax exemption for construction materials and equipment purchases;
- and access to reduced electric rates.

Super Research and Development Credit

is for businesses that qualify for the aforementioned Research Expense Credit and whose qualified research expenses in Maine for the taxable year exceed 150 percent of their average research expenses for the three taxable years prior to the effective date of the credit. The credit is limited to 50 percent of the tax otherwise due after all other credits.

Further, the credit cannot reduce tax liability below the amount due the previous year after credits. The credit cannot be carried back but can be carried forward for up to five years.

MARKETING

Department of Marine Resources, Community Resource Development, provides support to Maine's fish and seafood harvesting, distribution and processing industries. Development research is conducted to provide public information about economic impacts, market trends, industry structure and financial needs of the fish and seafood industries. Economic development advocacy and policy are carried out through working internally and collaboratively with department staff and collaboratively with the State Planning Office, DECD, economic development districts and other state and local agencies.

The Maine Products Marketing Program

(MPMP) builds recognition for hundreds of exceptional Maine-made products and their producers. Producers of quality products substantially made in Maine can participate in a number of program features, including the “Maine Made – America’s Best” product identification labels, kiosk display opportunities and national and regional trade show participation. There is no fee to apply, and members are entitled to a complimentary profile, with Web and e-mail hotlinks, on the globally accessible www.mainemade.com. MPMP is very proud to provide marketing assistance and to discover and create new and expanded market opportunities for Maine’s many quality producers.

WORKFORCE TRAINING

Governor's Training Initiative (GTI)

provides financial training assistance for job creation, retention and competitive retooling by linking Maine's education and training providers to the needs of Maine employers. To be eligible, an employer must provide a starting wage equal to 85 percent of the average wage for that occupation in the given labor market area and contribute at least 50 percent of the premium cost of employee health insurance. (Some small and new businesses are exempt from the second requirement.)

Contact: Maine Department of Labor

207-624-6390

www.mainecareercenter.com/business

Maine Apprenticeship Program provides on-the-job training and related classroom instruction. A portion of the registration fees for two courses per semester may be reimbursed for successful completion of course work. At the end of the program, the employer has a certified, skilled journeyperson.

TECHNICAL ASSISTANCE

Business Answers, Maine's **business information resource**, provides assistance in most areas of starting and operating a business in Maine. In addition to providing information about state small business development resources, this program offers One Stop Business Licensing assistance **over the phone or the Internet**. This service helps businesses identify state licensing requirements that pertain to them and provides applications and information needed for business operation. Complementing these services is the small business advocate, who can facilitate communications between small businesses and state government.
